

# NHS Tayside Mental Health Services Review

**An independent review into NHS Tayside Mental Health Services is being established.**

**There is a commitment to involve those families who have been affected by suicide and people with experience of mental health services across Tayside**

**The Health and Social Care Alliance are chairing a participation group to feed into and shape the NHS Tayside Mental Health Services Inquiry.**

**We want to hear from people interested in working in a group to ensure that the Inquiry is open and transparent.**

**There will be a variety of opportunities to share experiences and stories with the Inquiry. This will include a chance to submit written evidence.**

**Our website will be regularly updated with information on how to get involved.**
