

Supporting the Women's Health Plan

The Health and Social Care Alliance Scotland (the ALLIANCE) is the national third sector intermediary for a range of health and social care organisations and is a third sector champion of lived experience. The ALLIANCE is working with the Scottish Government to create opportunities for women to engage with the **Scottish Government's Women's Health Plan 2021-2024** and share their experiences to support policy and service development. This follows previous ALLIANCE **engagement work** in 2020 and 2021 to **hear from women** about their experiences of accessing services in Scotland.

Lived Experience Stakeholder Group

This Group supports women across Scotland to share their perspectives to influence change. The Group identifies and influences proposed policy and service developments in relation to the priority areas of the Women's Health Plan.

Information events

The ALLIANCE's programme of information events supports women's access to health information, and tackles misinformation and stigma that are still attached to many women's health concerns.

Conversation Cafés

Regular Conversation Cafés, delivered both virtually and in the community, provide women with opportunities to connect with people with similar experiences to them, informally and without judgement. The Cafés are an opportunity for attendees to share experiences and tips and ask questions.

ALLIANCE Live

ALLIANCE Live Women's Health at the Centre is a digital content and podcast series specifically on women's health and lived experience. This involves interviews with women's health clinicians and experts, third sector representatives, and critically, women themselves sharing their experiences and recommendations.
